# Service Letter

Letter No. SL0001

Issue Date: April 7, 2009

## **"FAA/PMA" marking on heaters manufactured prior to February 19, 2009**

### **INTRODUCTION:**

It has been brought to C&D's attention that prior to March 1, 2009 heater data plates did not indicate the heater was FAA/PMA approved. The heaters did have the proper FAA/PMA paper documentation with it.

### **COMPLIANCE:**

Requirement of the FAA code of federal regulations FAR 45.15. "Replacement and Modification Parts" must be properly marked as "FAA/PMA" approved.

### **EFFECTIVITY:**

Heaters manufactured by C&D Associates, Inc. prior to February 2009 serial number 1616 are affected by this information. Heaters manufactured after March 1, 2009 serial number 1617 and up are correctly identified with "FAA/PMA" markings.

### **PROCEDURE:**

Verify that the C&D Associates, Inc. heater installed in the aircraft is identified as "FAA/PMA" on or near the data plate. C&D Associates, Inc. with the heater part number and serial number or check for eligibility on the internet at [www.aircraftheater.com](http://www.aircraftheater.com). Enter into the aircraft log that "FAA/PMA marking according to C&D Service letter SL0001 has been complied with". After verification of eligibility install C&D Associates, Inc. label L21086 or permanently mark "FAA/PMA" near the data plate.

### **MATERIAL REQUIRED:**

Label L21086

### **PARTS AVAILABILITY:**

Label part number L21086 available on request.
