Issue Date: March 01, 2011

## Jet fuel combustion heater CD14190-1 Fuel delivery improvement

### **INTRODUCTION:**

To eliminate possible fuel contaminants from entering the fuel system down stream of the heater fuel filter. A new fuel nozzle holder assembly and one piece elbow is available.

### **COMPLIANCE:**

C&D is recommending that the nozzle holder assembly and elbow with removable 1/8" NPT plug be replaced at time of overhaul or servicing.

### **EFFECTIVITY:**

Heater part number CD14190-1 manufactured prior to January 2011. Serial numbers affected are 1695, 1696, 1664, 1665, 1666, 1667, 1668, 1583, 1582, 1581, 1580, 1579, 1539, 1538, 1537, 1536, 1535 and 1348.

### **PROCEDURE:**

In accordance with the C&D Service Manual MM10001 Rev. E Dated March 22, 2011 or newer approved revision: remove the nozzle holder assembly P/N 21795 and install the new nozzle holder P/N 21794. The new nozzle holder can be identified by it's height of 1.05 inches which allows room for the nozzle with a filter to be used.

Remove the two piece elbow P/N 21561 along with its 21560 removable 1/8" plug. Install the new one piece elbow P/N 22209. Replace the existing fuel cup label with a new label P/N 21346 rev. B

### **MATERIAL REQUIRED:**

Nozzle Holder Assembly P/N 21794  
Elbow P/N 22209  
Label P/N 21346 rev b.

### **PARTS AVAILABILITY:**

Heaters under warranty: Parts available as exchange at no additional charge  
Out of warranty heaters: Parts are available at 50% discount till 01-01-2012
